

HANDS SAND™

Hands Across The Sand Is Coming To Your Beach or City

Sponsors sought for Hands continued advocacy efforts:

Please join **Oceana, Surfrider Foundation, Sierra Club, Southern Alliance for Clean Energy, Gulf Restoration Network, Center for a Sustainable Coast, Friends of the Earth** and others as a *Hands Across the Sand* organization Sponsor!

Hands Across The Sand is a global grassroots event that champions clean energy solutions to our filthy fuels problem and we are looking to add sponsors to the amazing list of organizations that assist us every year.

On May 21, 2016 people around the world will join hands at noon local time to say NO to the process and use of filthy fuels which includes offshore drilling, seismic air-gun testing, hydraulic fracturing, XL Pipeline and tar sands. We advocate by saying YES to clean energy. The backbone of our movement is local organizers who plan 15-minute events in their communities and sponsoring organizations who support and amplify our message.

Hands Across The Sand has been a global success for more than 5 years now with thousands of events in all 50 states and nearly 50 countries worldwide from New Zealand to Hawaii. Join Hands to end our dependence on dangerous, dirty fuels. Join Hands to end global warming and climate change. Join Hands to embrace Clean Energy. "It's the most important thing we can do as human beings" Dave Rauschkolb, founder.

In 2013 we added Land issues that include Hydraulic Fracturing, XL Oil Pipeline, Tar Sands Mining, Coal Power Plants and Mountain Top Clearing. We want to join all of these issues with offshore, deep water drilling for oil and seismic testing so that we can attract as many passionate people that we can to tell our leaders to end our dependence on dirty fuels. It is truly our most important human endeavor for a sustainable planet.

Our amazing sponsors for 2015 included: Sierra Club, Surfrider Foundation, Oceana, Southern Alliance for Clean Energy, Gulf Restoration Network, Center for a Sustainable Coast and Friends of the Earth. Our partners include Urban Paradise Guild and All Things Healing.

Please visit our web page at www.handsacrossthesand.org to read all about our efforts **and to join us in our passion** to stop climate change. **Click on our SPONSOR link to learn how to become a sponsor.**
